

There are plenty of drivers that you can use to update your Windows 7 PC or laptop. You might even have one or two that you downloaded from a website online. Some might even be a paid download, but the Honestech Tvr 2.5 Driver For Windows 7 is completely free and available for download through the software developer's website. It's been tested to work on both 32-bit and 64-bit machines with Windows 7 build 7601, which is the version released in December 2012 by Microsoft Corp. This driver has been tested to work on computers with AMD, Intel, and Nvidia graphics cards. This driver update installs support for the following graphics cards: ATI Radeon HD 2600 Pro ATI Radeon HD 2400 Pro AGP AMD Radeon HD 3800 Series Intel GMA X3100 (945GZ) integrated graphics (primary display adapter) (all video functions, including video playback for DVD and Blu-ray discs) and nNvidia GeForce 8500 GT, GeForce 9500 GS, and GeForce GT 220. [ARTICLE END] [ARTICLE START] Windows 7 64-bit operating system. We also recommend that you use the most recent service pack available before installing the software. To determine whether the download is compatible with your operating system, visit the following Microsoft website: <http://www.microsoft.com/windows/compatibility/windows-7>. See the following link for the list of supported graphics cards for this driver: <http://www.microsoft.com/en-US/download/details.aspx?id=18986>. Windows 7 (32-bit and 64-bit) Home Premium, Professional, Ultimate editions (except Starter Edition), Windows Vista (32-bit and 64-bit) Starter, Home Basic, Home Premium, Business, Ultimate editions, Windows XP Home, Professional, and Service Pack 3, Windows 2000 Professional edition are supported by Microsoft's official Windows 7 driver. Windows Vista Home Basic, Home Premium, Business, Ultimate editions, Windows XP Starter, Home, and Professional editions are not supported by Microsoft for this driver. Windows 7 Enterprise is supported by Microsoft's official Windows 7 driver. Microsoft has confirmed support for several Nvidia GeForce 8800GT graphics cards in its latest beta release of the Windows 7 Driver Package. Support for the following Nvidia graphics chipsets were added in this beta release: GeForce 8800 Ultra (G75), 8800 GTS (G71), 8800 GTX (G71) and 9800M GTX (G71). They also added support for the following ATI Radeon graphics chipsets: X1900 and HD 2000.
