The second release of the title now gives the option to play in two difficulty levels. The easy mode seems to be a beginner type of thing, the harder mode not only increases the difficulty, but also increases the level of ammunition required. The game is known to have a complex storyline. The game is divided into three stages, with six weapons, and a total of eight vehicles to choose from. You can also pay money in the game for special equipment to increase your arsenal. The game plays like a 3D version of the game most of us know and love from gaming arcades. You use the WASD keys or left and right arrow keys to move. The space bar is used to fire weapons, and the up and down arrows increase or decrease the firepower of your weapons. Also, hitting the space bar repeatedly will allow you to explode the current weapon and use your only current weapon. This can be a real pain, since the game allows you to use only one weapon at a time. This release also allows a full screen option, which is a nice addition. The look and style is pretty basic, but it is what the game is about. Heavy Weapon Deluxe - Drive Tank! Fight Airplane! - v1.2 is a released by the fine folks at PopCap games on 06-08-2020.
