Despite the name Kama Sutra, in the book, it firstly covers the philosophy of life, spirituality, love, the art of gymnastics, the philosophy of the body, traditional medicine, and much more. Due to the fact that Kamasutra is a book of the knowledge, the viewer will not pass the first few pages and will have to plunge in the depth of this text. He or she will have to penetrate the thick curtains and will have to break through some knots that are in the bundle of the text. However, once they come out, they can not even dream about staying away from the book. Each small fragment will help you reach the goal and end with a great release. Every word of the text is composed of the basic principles of human life, it is not necessary to discard, but the purpose is to understand them correctly. It is impossible to forget the story of Abhinavagupta, who read the Kamasutra in the cities of the left side of the country after his ordination as a monk. After that he burned the text on the fire. Moreover, he made an inscription on the gates of the monastery where he used to live where it says "Do not burn this book", indicating that this book is the most precious precious stone and the greatest of wonders, which can open the doors to the highest heights of knowledge and wisdom. In a later time, you may hear the story of a brother who offered the Kamasutra to his wife with that inscription, but she refused to accept it. Before that, let us hurry up to the main point of the article. The Kamasutra is valuable in many ways, but if you are trying to find something to make you happy, it will be a real fortune. Such an opportunity was provided to a couple, who had a quarrel and had decided to divorce. Although it is old, we have no doubts in offering the couple peace of the mind, which is not only a blessing, but also a blessing for other people. Kamasutra will not only refresh the mind but will also make the soul open the veil of the eyes and will remove the clouds of the mind.
